

Raising Happy, Healthy Kids in the 21st Century

Lin Howe PTA Offers a Parent Education Night featuring
Penelope Facher, LCSW, Ph.D
Thursday, May 10 @7:00 p.m.
Lin Howe Cafeteria

Do you ask yourself “Is my kid normal?”

Supporting the healthy growth of our children requires understanding of the unique circumstances of their social, emotional, biological, cognitive and neurological development. In this talk, Dr. Penelope Facher will present relevant aspects of all of these areas, with a particular focus upon how to help us understand and best support our children's healthy development.

Dr. Penelope Facher has worked in education and mental health for 25 years. In addition to her private practice with children, adolescents, parents, individuals and couples, she consults with schools both locally and nationally, and is a noted lecturer and trainer. She is the proud and tired mom of two Lin Howe Kindergartners.
